## Pet King Brands to Exhibit In-Person at VMX Veterinary Meeting & Expo 2021

*Pet King Brands Exhibits ZYMOX® and ORATENE® Product Lines at VMX Veterinary Meeting & Expo 2021*

**WESTMONT, IL – May 27, 2021** - Pet King Brands, Inc., the maker of leading enzyme-based pet health brands **ZYMOX**® Dermatology and **Oratene**® Brushless Oral Care will be exhibiting live at the VMX Veterinary Meeting & Expo 2021, Booth #3107 & 3018 in Orlando, Florida at the Orange County Convention Center on June 5, 2021.

The VMX Veterinary Meeting & Expo is the first in-person exhibition for Pet King Brands since the onset of the COVID-19 pandemic. This return marks over twenty years of the company providing educational support and outreach to veterinary healthcare providers who are seeking proven solutions that are free of antibiotics and harsh chemicals for common pet health concerns such as ear infections, allergic skin disease, and dental care.

Pet King Brands has established itself as a leader with easy-to-use products that provide soothing relief without side effects and reduce stress to small and large animals. To learn more about **ZYMOX** and **Oratene** and the patented LP3 Enzyme System at the center of all products, visit [www.zymox.com](http://www.zymox.com) and visit booth #3107 & 3108 at the VMX Veterinary Meeting & Expo 2021.

### **About Pet King Brands, Inc.**

Pet King Brands, the maker of **ZYMOX**® Ear and Skin products, **Oratene**® Brushless Oral Care and **Equine Defense**®, is a leader in veterinarian-approved pet products made in the USA. Focused on the health and wellness of small and large animals of all ages, the products utilize the advanced technology of the patented LP3 Enzyme System. Led by President and Founder, Pamela Bosco, who first introduced **ZYMOX** in 1998 with the help of her bioscientist brother, Michael Pellico, Pet King Brands has changed the way people care for animals' ears, skin, and mouth. Guided by the principle that *Healthy Animals Lead Happy Lives*™, Pet King Brands offers solutions that are gentle to the animal, easy to administer and free of harsh chemicals and antibiotics.
